

## Policies, Rules/Regulations for Student Swipe-Card Access to SLC 127 (NMR Room)

### Department of Chemistry

The Chemistry Department at Wilkes University recognizes the need to allow student access to instrumentation—particularly the new high-field NMR. Chemistry Department policy has traditionally refrained from issuing students individual room keys; the room that houses the high-field NMR (SLC 127) utilizes a swipe-card key access (allowing the University/Department to electronically monitor room access). Swipe-card access also allows the Department to extend the privilege of room access to individual students on an ‘as-needed’ basis.

By signing below, I acknowledge that I have read and agree to the terms and conditions associated with swipe-card access to SLC 127.

- Student can access Room 127 from the hours of 7 a.m. until 10 p.m.
- Student will NOT allow unauthorized access to another student (i.e. don't give your card to another student).
- Failure to comply with these rules can (and most likely will) result in the loss of room access.
